**SDC Memorandum of Understanding (MOU)**

Chad opened a discussion about the MOU. Gary(IP) Stated IP has concerns and is unable to sign at this time but will track down reason for concern. Necessity of MOU was discussed. Possible changes to the MOU still up for debate. CHD currently has the MOU.

**Road Centerline**

Nampa, Caldwell, and Canyon County are currently working together and editing the centerline file. Canyon County(Tony) created a Geocode/Update interface for editing purposes. Jay discussed the interface, described form and fields. There will be an upcoming meeting on Jan 19<sup>th</sup> at Nampa Civic Center to discuss Addressing and the centerline file. Group discussed need for one agency to edit the centerline and it was determined that it was not feasible. Chad brought up need for timeline on centerline edits, which may be discussed at a later date.

**SDC Goals**

Rod- Creation of Hydro layer. Nampa currently using modified IDWR layer. IDWR has data on their website which we may be able to incorporate into group data set.

Ross- Need for GIS advisory group.

Chad- GIS marketing, could we spread the word about GIS to a variety of people. GIS Day may be a good date to implement.\

Chad- Discussed interest in education.

**Manatron**

Chad gave a brief demonstration on Manatron and its fields. No definite date on availability of use from FTP site. CC is still working on updating the Manatron system.

**IMS**

Chad gave a brief demonstration of the IMS site. Parcel query.

**Next Meeting:**

February 1<sup>st</sup> 2006 at 8:30 – Nampa Hwy District  
Ada County to do presentation, Ross will confirm.
