Eric Shannon, Nampa Highway District
Karla Baker, City of Caldwell
Eric Adolfson, COMPASS
Mark Wasdahl, ITD

Old Business

Training Opportunities

- GIS Day at ISU, with chili feed on November 15.

Ada County SIG Update

- No SIG members present to give an update.

RGAC Update

- Meeting was cancelled.

Subcommittees

Addressing – Travis Tyson/Jay Young

- Travis absent so Jay gave the update.
- Still working on the address points layer, which is designed to become the specific address layer for the county.

- Critical features such as common points need to be in there for Spillman, let Jay know if you don't see stuff in address points that you need.
- Craig said the ownership field is often not maintained or updated. We could do away with it (and use only the parcels), but sometimes the information has been useful when there are multiple tenants.
- There is a program called 1033, hosted internally that manages hyperlinks attached to structures. This includes floor plans, fire escapes, etc. such as for schools.
- All mobile home parks are now in the address point layer.

New Business

COMPASS:

- Ross Dodge has resigned, Ian has filled his position.

GIS Day:

- Nov 15th is the official GIS Day. We should start looking ahead to participate next year, perhaps at BSU or CWI.

Website Renewal:

- SWIG has taken over website hosting. We owe them \$11 per year, and \$3 has already been paid. Collected \$8 to pay for our web space (\$1 per person in attendance).

Individual Project Updates

Closing Discussion

Next meeting will be held Wednesday, December 7, 2011 at 10:30am at the Caldwell Airport (Hubler Terminal, 4814 E Linden St, Caldwell, ID).

- Officer elections for 2012 will be held. Please attend this meeting or contact Kristi Watkins if you are in good standing and would like to vote and/or run for office.
