**Listserve**

We should look into the possibility of setting up our group info on the Geotech Listserve

**Parcel Data**

CC is currently caught up to 2005 on parcel edits. County is looking to have data accurate to 3 ft. A future meeting will be scheduled for parcel cleanup needs assessment

**Pictometry**

Flight schedule possibly 2<sup>nd</sup> week in April with delivery schedule of mid to late summer.

**Idaho Power**

Gary will look into the possibility of distributing the preliminary plat data they update quarterly. Discussed possibility of delivering via ftp site.

**Presentation**

Baron Buckingham discussed databases and design practices used with various IP projects. Discussed SDE Lite for smaller businesses such as small local gov.

**Training**

Continue to look for new training possibilities. Boise will have "getting the most out of desktop" April 25th put on by ESRI.

**SWIG**

Next SWIG meeting will be held May 9<sup>th</sup>, location unknown.

**Next Meeting:**

May 3<sup>rd</sup> location Canyon County with speaker Nathan Bentley.
